

HOCKEY

THE PERFECT HOCKEY PARTNER

Our synthetic turf hockey systems offer an innovative design that delivers maximum performance. Hockey is a sport that demands sport-specific surface performance. Whether your facility is dedicated solely to field hockey or hosts multiple sports, FieldTurf has a carefully engineered line of products that are ideal for all levels of hockey.

FieldTurf is an International Hockey Federation (FIH) Preferred Supplier and an Official Sponsor of the National Field Hockey Coaches Association (NFHCA). All of FieldTurf's hockey products have been designed following strict testing protocols and offering player-friendly advancements to the game, enabling players to showcase their skills and strengths.

The FieldTurf Hockey Gold series is a set of revolutionary synthetic turf systems designed specifically for the highest levels of field hockey play. Our hockey range has been designed and engineered with input from top-level hockey coaches and players to ensure it exceeds performance expectations.

From elite level, to school & community multi-sport use, our enhanced product range meets the demands of continued evolution and advances in the game.

The product is engineered using the Elliptic fiber – a uniquely engineered filament with the same reliable, built-in durability characteristics that FieldTurf are known for.

Manufactured in-house by our state of the art yarn producer, our unique elliptical fiber is changing the standards for hockey performance.

The Elliptic fiber holds its shape in either water-based or sand-dressed surfaces, providing a truly uniform and non-directional surface with exceptional durability.

HOCKEY-SPECIFIC FIBER SHAPE & TEXTURE

FOR EXCELLENT BALL
PERFORMANCE & LOW ABRASION

IMPROVED NON- DIRECTIONAL BALL ROLL & SPEED

THAN OTHER TRADITIONAL
HOCKEY TURFS

PREMIUM HOCKEY PERFORMANCE

DESIGNED TO BE THE NEW
STANDARD IN FIELD HOCKEY

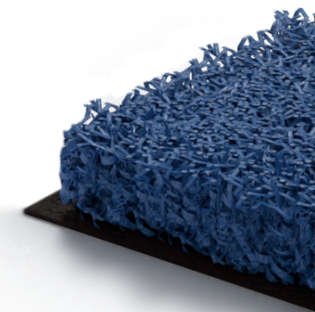

ELITE

HOCKEY GOLD SPEED

Hockey Gold Speed water based solutions take hockey systems to a new level of performance and quality. Designed to provide the best playing characteristics for elite play, our Elliptic fiber delivers excellent coverage, market-leading resilience and optimum ball-surface interaction.

CLUB

HOCKEY GOLD ELITE

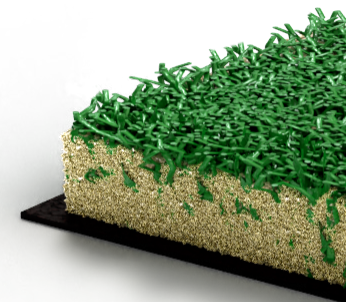

Ideal for Club use, Hockey Gold Elite has been designed to perform even more closely to a water-based surface without the requirements of an irrigation system. A shorter pile height, denser pile and less sand results in improved playing characteristics.

COMMUNITY

HOCKEY GOLD PRO

FieldTurf's sand-dressed Hockey Gold Pro system is an optimum solution for school, community and multi-sport use. Using our extremely durable Elliptic fiber in a dense pile construction, the system meets top levels of sports performance.

fieldturf.com

When it comes to synthetic turf sports fields, FieldTurf is the most trusted brand in the industry. FieldTurf, the synthetic turf division of Tarkett, invented and perfected long-pile, infilled synthetic turf – we are the innovators who changed the industry and ultimately became the global leader for outdoor sports solutions. Our aim was to create the very best playing surface possible, combining the performance properties of natural grass with the benefits of a synthetic solution.

Whether it's football, rugby, hockey, tennis or a wide range of other sports, FieldTurf systems provide athletes with the safety and performance they expect in order to perform at their best, whilst giving field owners the durability they need to maximize the value of their investment.

Manufactured entirely in Europe, with fiber from our plant in Germany through to our tufting operation in France, FieldTurf controls all aspects of the manufacturing value chain. From start to finish, your field doesn't leave our hands. Manufactured and installed with the highest attention to detail, FieldTurf systems showcase proven durability and there are more than 20,000 FieldTurf installations worldwide.

FieldTurf is a select member of the FIFA, World Rugby and FIH Preferred Producer Programmes, having met the high quality standards required to deliver elite-level pitches worldwide.
